

**Framework Agreement on the establishment of the International
Solar Alliance (ISA)**

We, the Parties to this Agreement,

Recalling the Paris Declaration on the International Solar Alliance of 30th November 2015 and the shared ambition to undertake joint efforts required to reduce the cost of finance and the cost of technology, mobilize more than US \$ 1000 billion of investments needed by 2030 for massive deployment of solar energy, and pave the way for future technologies adapted to the needs,

Recognizing that solar energy provides solar resource rich countries, lying fully or partially between the Tropics of Cancer and Capricorn, with an unprecedented opportunity to bring prosperity, energy security and sustainable development to their peoples,

Acknowledging the specific and common obstacles that still stand in the way of rapid and massive scale-up of solar energy in these countries,

Affirming that these obstacles can be addressed if solar resource rich countries act in a coordinated manner, with strong political impulse and resolve, and that better harmonizing and aggregating the demand for inter alia solar finance, technologies, innovation or capacity building, across countries, will provide a strong lever to lower costs, increase quality, and bring reliable and affordable solar energy within the reach of all,

United in their desire to establish an effective mechanism of coordination and decision-making among them,

Have agreed as follows:

Article I Objective

Parties hereby establish an International Solar Alliance (hereinafter referred to as the ISA), through which they will collectively address key common challenges to the scaling up of solar energy in line with their needs.

Article II Guiding Principles

1. Members take coordinated actions through Programmes and activities launched on a voluntary basis, aimed at better harmonizing and aggregating demand for, inter alia, solar finance, solar technologies, innovation, research and development, and capacity building.
2. In this endeavor, Members cooperate closely and strive for establishing mutually beneficial relationships with relevant organizations, public and private stakeholders, and with non-member countries.
3. Each Member shares and updates, for those solar applications for which it seeks the benefits of collective action under the ISA, and based on a common analytical mapping of solar applications, relevant information regarding: its needs and objectives; domestic measures and initiatives taken or intended to be taken in order to achieve these objectives; obstacles along the value chain and dissemination process. The Secretariat maintains a database of these assessments in order to highlight the potential for cooperation.

4. Each Member designates a National Focal Point for the ISA. National Focal Points constitute a permanent network of correspondents of the ISA in Member countries. They inter alia interact with one another and also with relevant stakeholders to identify areas of common interest, design Programmes proposals and make recommendations to the Secretariat regarding the implementation of the objectives of the ISA.

A Programme of the ISA consists of a set of actions, projects and activities to be taken in a coordinated manner by Members, with the assistance of the Secretariat, in furtherance of the objective and guiding principles described in article I and II. Programmes are designed in a way to ensure maximum scale effect and participation of the largest possible number of Members. They include simple, measurable, mobilizing targets.
2. Programme proposals are designed through open consultations among all National Focal Points, with the assistance of the Secretariat, and based on information shared by Members. A Programme can be proposed by any two Members or group of Members, or by the Secretariat. The Secretariat ensures coherence among all ISA Programmes.

A Programme proposal is deemed open to adhesion by Members willing to join if it is supported by at least two Members and if objections are not raised by more than two countries.
4. A Programme proposal is formally endorsed by Members willing to join, through a joint declaration. All decisions regarding the implementation of the Programme are taken by Members participating in the Programme. They are carried out, with the guidance and assistance of the Secretariat, by country Representatives designated by each Member.
5. The annual work plan gives an overview of the Programmes, and other activities of the ISA. It is presented by the Secretariat to the Assembly, which ensures that all Programmes and activities of the annual work plan are within the overall objective of the ISA.

Article IV Assembly

3. The Assembly assesses the aggregate effect of the Programmes and other activities under the ISA, in particular in terms of deployment of solar energy, performance, reliability, as

well as cost and scale of finance. Based on this assessment, Members take all necessary decisions regarding the further implementation of the objective of the ISA.

4. The Assembly makes all necessary decisions regarding the functioning of the ISA, including the selection of the Director General and approval of the operating budget.
