Secretariat
International Solar Alliance

Subject: Proposal capacity building program of ISA in a phased manner through its certified Master trainers.

International Solar Alliance (ISA) has received a proposal from Skill Council for Green Jobs, New Delhi. SCGJ has offered to implement the capacity building program of ISA in a phased manner through its certified Master trainers. They have proposed to take up about 300 online training programs per year engaging 10 Master Trainers of SCGJ. Each online training program can be attended by on an average 40 candidates. The Candidates would have to be mobilised by ISA from its member countries. With this, about 12,000 candidates can be covered in a year.

2. The training program would be of 15 hours and the program would end with an online assessment on the subject and certification by SCGJ. The participants would be provided with e-learning material. They will also organise reply of questions from participants through e-mails. IT support to the trainings will also be provided by Skill Council. For these services, SCGJ would charge a sum of Rs. 1,500 per candidate for 15hrs training, with a minimum of 30 candidates per batch. This cost is purely to cover the honorarium to be paid to the Master trainer and expert delivering the courses. The following are seven programmes of ISA.

1. Scaling Solar Applications for Agricultural Use
2. Affordable Finance at Scale
3. Scaling Rooftop
4. Scaling Solar E-Mobility & Storage
5. Scaling Solar Mini Grids
6. ISA Solar Park
7. Solarizing Heating and Cooling Systems.

3. If the original bidder cannot complete the entire 5000 slots for seven programs, the other eligible bidder may be allocated to complete the same and also right of refusal will be provided to original bidder.

4. If any organization/firm/agency has better proposal than that submitted by SCGJ, are invited to send their detailed proposals mentioning the activities & services offered to Mr. Sudhakar Upadhyay email: sudhakar@isoalralliance.org within 14 days from 11.02.2021.
