

The Corrigendum/Addendum/Clarification No.2 to Pre-Bid Queries raised by prospective bidders in response to RFP No. F. No 15/04/2023-ISA dated 12.04.2023. The following Corrigendum/Addendum/Clarification in response to queries raised by prospective bidders shall form an integral part of the bid document and it may amount to an amendment of relevant Para/clause of the bid document. Wherever there is a conflict, the provisions herein shall prevail over the relevant Para/clause of the RFP/ bid document.

Particular No.	Description Provided	Questions	ISA reply
Annex - Terms of Reference – Page No. 23 – Scope of Work	<p>The open portal will be a user-friendly interactive dashboard with attractive visualisations like maps, charts, icons and query-based functionalities, that will be hosted on ISA website.</p>	<p>1. What are the total number of Dashboards in scope?</p> <p>2. What are the numbers of KPIs / Charts per dashboard – High Level approximate estimation would help</p>	<p>One dashboard</p> <p>It is difficult to estimate the no. of KPIs or charts. See ISA’s Ease of Doing Solar 2022 publication (on our website) which gives a good understanding of the KPIs that we are interested in. The agency is expected to further refine or recommend more KPIs after consultations with various stakeholders (as mentioned under the head ‘Planning’ in the Scope of Work section of the Terms of Reference).</p>
Annex- Terms of Reference – Page No. 23 – Scope of Work	<p><i>i.</i> Planning: undertake detailed analysis of solar data and publications of ISA and other external sources to shortlist key data points that should be a part of the solar portal.</p> <p><i>ii.</i> <i>Design & Development:</i> Ability to aggregate, analyse and visualise data from multiple sources</p>	<p>3. Would you be able to throw some light on number of Data Sources to be connected such as SQL/SAP/Excels, etc. to load data in the data portal?</p> <p>4. Is the data expected to be sourced from internal and external sources only one time or on recurring basis? If recurring, can we expect web APIs from sources to be able to fetch the data repeatedly into our database? If not, what are the alternate options that we can expect for loading the data?</p>	<p>See above</p> <p>Both internal and external sources. Yes, web API to source data repeatedly – however, agency should ensure that the data is available in public domain or we have some agreement with the source organization that we can use their data.</p>

<p>Annex- Terms of Reference – Page No. 23 – Scope of Work – (i) – Planning – Clause e.</p>	<p>Review ISA's IT infrastructure including website to gauge the portal's requirements such as server space, front- and back-end software, licenses and any other systems required to develop, launch, maintain and update the portal;</p>	<p>5. Our understanding is that ISA will procure any licenses for software Dashboard tools like BI - Power BI or Tableau, etc., front & back-end tool like .Net MVC, etc., DB tool like MS SQL Server, etc. Please advise or alternately suggest if vendor is supposed to consider open-source tools for portal and / or dashboards.</p>	<p>Details are mentioned in the Terms of reference. Agency will have to work with ISA's team to procure relevant licenses</p>
<p>Annex- Terms of Reference – Page No. 23 – Scope of Work</p>	<p><i>i.</i> Planning: c) liaise with relevant organisations to source and integrate data into the portal</p>	<p>6. How is data currently being collected from all the countries? What is the mechanism?</p>	<p>See Terms of Reference – Ease of Doing Solar Report is the basis for collecting information currently – the latest report (2022) is available on our website</p>
<p>Annex- Terms of Reference – Page No. 23 – Scope of Work</p>	<p><i>i.</i> Planning: a) hold inception meetings with a range of ISA stakeholders and staff to understand their data requirements;</p>	<p>7. We understand that ISA is collecting data from all 107 countries. Does each of the 107 countries have nominated Nodal Officer for this purpose?</p>	<p>Yes, we work with a National Focal Point in each country who coordinate all ISA work. They are not exclusively nominated for this purpose.</p>
<p>Annex- Terms of Reference – Page No. 24 – Scope of Work</p>	<p>All portal features should be available in ISA's official languages – English, French and Spanish</p>	<p>We understand that the use of “google translator” or any other similar tool would suffice for the implementation of this feature. Please confirm.</p>	<p>Yes</p>
<p>-</p>	<p>General</p>	<p>8. What is the current institutional structure? Please provide details of existing institutional structure.</p>	<p>www.isolaralliance.org</p>

RFP cl. 7: qualification – Page 27	Ability to handle information in English, French, and Spanish.	We understand that a person with a qualification in French/Spanish language shall suffice here. Please confirm.	Yes
